WELCOME MESSAGE

Dear Colleagues,

In this issue, I would like to bring your attention to several funding opportunities with summer deadlines. Please review the current funding opportunities section of the newsletter for more information and links to the funding announcements. I join President Tom Bailey and Provost Kerry O'Meara in congratulating our faculty recipients of external funding. We also congratulate Dr. Michelle S. Troche for being one of five recipients of the Landis Award for Outstanding Mentorship, an annual award from the National Institute of Neurological Disorders and Stroke (NINDS), which provides a prize of $100,000.

We received six submissions for the Ball-Stick-Bird Award, which will support collaborative research projects that aim to advance the field of child development and individual learning. This opportunity is made possible by the Estate of Dr. Renee Fuller, the creator of the Ball Stick Bird learning method. Thank you to the TC faculty members who submitted proposals for consideration. We will announce the award recipients in the July issue of the newsletter. We would like to thank the faculty members who served as reviewers this past academic year for our two student award programs: The Deans Grant for Student Research and the Provost's Dissertation Research Award. They are Professors Judy Burton, Tiesha Finley, Pam Koch, Lisa Levinson, Gemma Moya-Gale, Beth Rubin, Elaine Smolen, Youmi Suk, Tran Templeton, Lena Verdeli, and Tyler Watts. We will announce the student recipients of the AY25 Dissertation Research Award in the September newsletter.

In the sections below, please read time-sensitive information about external funding opportunities.

Please feel free to contact me with your questions, ideas, or suggestions. I look forward to hearing from you at vdr@tc.columbia.edu.

Enjoy the summer season!

Warm regards,
Caroline

Caroline Ebanks, Ph.D.
Vice Dean for Research

Heising-Simons Foundation

The Heising-Simons Foundation Science program announces a new [Open Call for Science Events and Gatherings](#). It welcomes applications for grants to support meetings, workshops, conferences, summer schools, research collaboration gatherings, and other events related to the fields of astronomy (including planetary science), cosmology, fundamental physics, **climate change science, and/or increasing the representation and retention of underrepresented groups in these fields**. The foundation expects to fund up to $400,000 total in grants during this open call for proposals. Each grant will be between $20,000 and $80,000, and the closing date for the open call is August 30, 2024.

New America: The Learning Sciences Exchange Fellowship Program

[The Learning Sciences Exchange](#) (LSX) is a ground-breaking fellowship for mid-career professionals who are interested in joining a diverse, multi-sector cohort for communicating new research and catalyzing change in schools and communities. The focus of this cohort will be parent and family engagement. Those with expertise in elementary or middle school-family partnerships are encouraged to apply. The application deadline is July 15, 2024. See the [call for applications](#) for more information.
